

KONGSBERG

## Sea COMMAND

### Navigation Combat System

The customer focused partnership of Sea Cross Marine and KONGSBERG provides leading edge capabilities for the navigator. By combining **SeaCross** with **Sea PROTECTOR**, the navigator gains improved situational awareness, day and night vision and immediate slew to cue engagement when necessary. The result is safe navigation and combat support optimized for the demanding tasks of modern **Combat Craft**.

#### Features Sea COMMAND

- Optimized for high speed operations
- Multi-function operator positions
- Distributed sensor videos
- Task oriented HCI

## SeaCross

SeaCross is today delivering its navigation systems to naval patrol and intercepting boats, coast guard boats, police and rescue boats where there is a demand for a system that is easy to use. The system is fulfilling the highest demands for position and course updates as close to real time as it is possible from the existing technical limitations in the GPS system.

## Sea PROTECTOR

Sea PROTECTOR is a fully stabilized remotely controlled weapon station for small caliber weapons and missiles.

The sensor package includes Color Day Camera, Thermal Night Camera (IR) and Laser Range Finder allowing day and night operations.
